### **Work/School Projects**

---

#### **CS 563 Project – Diffie-Hellman Key Exchange**

Norfolk, VA

*Creator*

April 2024

- The project implements the Diffie-Hellman Key Exchange, enabling two users to exchange keys securely. It begins with a menu allowing users to start or quit the program, then generates random numbers and checks for prime numbers as part of the key generation process. Users input their private keys, which are used along with predefined parameters to compute public keys, resulting in a shared secret key, and the process repeats from the beginning after completion.

#### **CPSC 430 Internship Website Project**

Fredericksburg, VA

*Co-Creator*

January 2021 – May 2021

- Collaborated with other team members during meetings to brainstorm ideas of the project, developed web design, pages, and flow of a website for students to access internships offered to University of Mary Washington Computer Science Department, researching the developments of websites, the proper design to make sure the website is inclusive

#### **CPSC 240 Bike Part Distributorship Project**
