

Chy’Nia Johnson

(804) 761-8551 | chyniaj@gmail.com | linkedin.com/in/chyniajohnson

Address: 52 Saint Pauls Rd, Warsaw, Virginia 22572

Citizenship: U.S. Citizen

Security Clearance: None

Professional Summary

Recent Master of Science graduate in Computer Science with a concentration in cybersecurity and data analytics. Strong foundation in programming, data analysis, and secure systems, with hands-on experience developing data visualization tools and implementing cryptographic algorithms. Demonstrates analytical thinking, problem-solving, and adaptability in both technical and fast-paced operational environments. Seeking to contribute technical and analytical skills in support of Air Force Civilian Service (AFCS) mission objectives through the PAQ/COP programs.

Education

Old Dominion University

Master of Science in Computer Science | Certificate in Cybersecurity | Norfolk, VA | May 2025

- Relevant Coursework: Data Science & Analytics, Cybersecurity Fundamentals, Networked Systems Security, Malware Analysis & Reverse Engineering, Computer Architecture
- Applied analytical and cybersecurity concepts through hands-on projects involving data modeling, visualization, and secure communications

University of Mary Washington

Bachelor of Science in Computer Science | Minor in Business Administration | Fredericksburg, VA | December 2021

- Relevant Coursework: Data Structures & Algorithms, Operating Systems, Software Engineering, System & Network Administration

Professional Experience

Spark Delivery Driver (Contractor)

Virginia

Supervisor: N/A | Contact: N/A | May contact: No

January 2025 – Present | 20-30 hours/week

- Executed time-sensitive delivery operations using logistics platforms, maintaining a 100% on-time delivery rate
- Applied route optimization and real-time problem-solving to improve efficiency and meet operational demands
- Demonstrated accountability, adaptability, and independent decision-making in dynamic environments

United Parcel Services (UPS)

Lively, VA

Preloader

Supervisor: N/A | Contact: N/A | May contact: Yes

October 2024 – May 2025 | 20-25 hours/week

- Organized and loaded high volumes of packages to support efficient distribution operations
- Maintained 100% accuracy in package handling under strict time constraints
- Collaborated with team members to meet operational deadlines in a high-paced environment

Instacart Delivery Driver (Contractor)

Virginia

Supervisor: N/A | Contact: N/A | May contact: No

March 2024 – November 2024 | 20-30 hours/week

- Managed order fulfillment and delivery logistics while maintaining high customer satisfaction
- Coordinated multiple orders and delivery schedules in real time
- Strengthened organizational and multitasking skills

Northern Neck Décor and More

Warsaw, VA

Owner and CEO

Supervisor: Self-employed | May contact: No

April 2023 – Present | 10-20 hours/week

- Managed end-to-end business operations including inventory, sales tracking, and marketing strategy
- Analyzed sales data and customer trends to inform product and pricing decisions
- Developed and implemented digital marketing strategies to increase engagement and revenue

The Front Desk NNK, LLC

Warsaw, VA

Research and Development Intern

Supervisor: N/A | Contact: N/A | May contact: No

June 13, 2023 – July 20, 2023 | 16 hours/week

- Conducted research and analysis to support event planning and community initiatives
- Assisted in developing marketing strategies to improve outreach and engagement
- Collaborated with cross-functional teams to execute event logistics and planning

Technical Projects

COVID-19 Data Visualization Project

- Developed a Python-based (Pandas, Matplotlib) data analysis application to track and visualize COVID-19 infection trends
- Performed data cleaning, transformation, and exploratory analysis using real-world datasets
- Created visual dashboards to communicate trends and support data-driven insights

Heart Rate Data Analysis Project

- Built a data visualization tool using Python (Pandas, Matplotlib) to analyze time-series health data
- Identified trends and anomalies through statistical analysis and visualization techniques
- Presented findings through clear graphical outputs to support interpretation of results

Diffie-Hellman Key Exchange Implementation

- Implemented a secure key exchange algorithm using principles of modular arithmetic and cryptography
- Simulated secure communication between systems to demonstrate encryption concepts
- Strengthened understanding of cybersecurity protocols and secure data transmission

University Internship Website (CO-Creator)

- Designed and developed a web-based platform using HTML, CSS, and backend integration
- Improved accessibility to internship opportunities for students through user-centered design
- Collaborated in a team environment to deliver a functional and scalable solution

Technical Skills

Programming Languages: Java, C, Python, JavaScript, PHP, SQL

Data & Tools: Pandas, Matplotlib, Data Analysis, Data Visualization

Databases: PostgreSQL, SQLite, MariaDB, MongoDB, Redis

Web Development: HTML, CSS, Flask

Systems: Linux/Unix

Tools: Git, Android Studio, Microsoft Office Suite, Adobe Photoshop

Project Management: Trello, Slack

Additional Information

- Strong analytical and problem-solving skills developed through academic and project-based work
- Experience working independently and in collaborative team environments
- Spanish: Limited working proficiency
